

RSS.app Payment Collection Flow

Knowledge Document - Step-by-step unpaid invoice payment journey

1

Home screen

Click orange Pay Now in the sidebar footer.

2

Billing page

Click View invoices under the Basic Plan card.

3

Billing history modal

Click blue Pay now for the unpaid invoice.

4

Chargebee checkout

Confirm the payment using Complete payment.

Document Purpose

This document explains the expected user journey for resolving an unpaid RSS.app invoice. It captures the screen sequence, the user action on each screen, and the control that must be highlighted for training, support, or product walkthrough usage.

Step	Screen	User sees	Required action
1	My Feeds / Home	Orange Pay Now visible in bottom-left sidebar because the account has an unpaid invoice.	Click Pay Now.
2	Account Settings - Billing	Basic Plan card and unpaid invoice area. View invoices is available.	Click View invoices.
3	Billing History modal	Invoice list opens as a modal. The unpaid invoice has a blue Pay now button.	Click Pay now on invoice #221353270.
4	Chargebee checkout	Secure hosted checkout opens with Visa ending 1633 and USD 9.99 due.	Click Complete payment.

Unpaid state drives visibility

The orange Pay Now CTA appears on the home screen sidebar only when payment is pending or failed.

Invoice modal is Step 3

After View invoices, the user sees Billing history. The unpaid invoice row should provide Pay now, not only Download.

Hosted payment is external

The final payment happens on a secure Chargebee-hosted checkout page, not inside the RSS.app dashboard.

1 Home Screen - Unpaid Account State

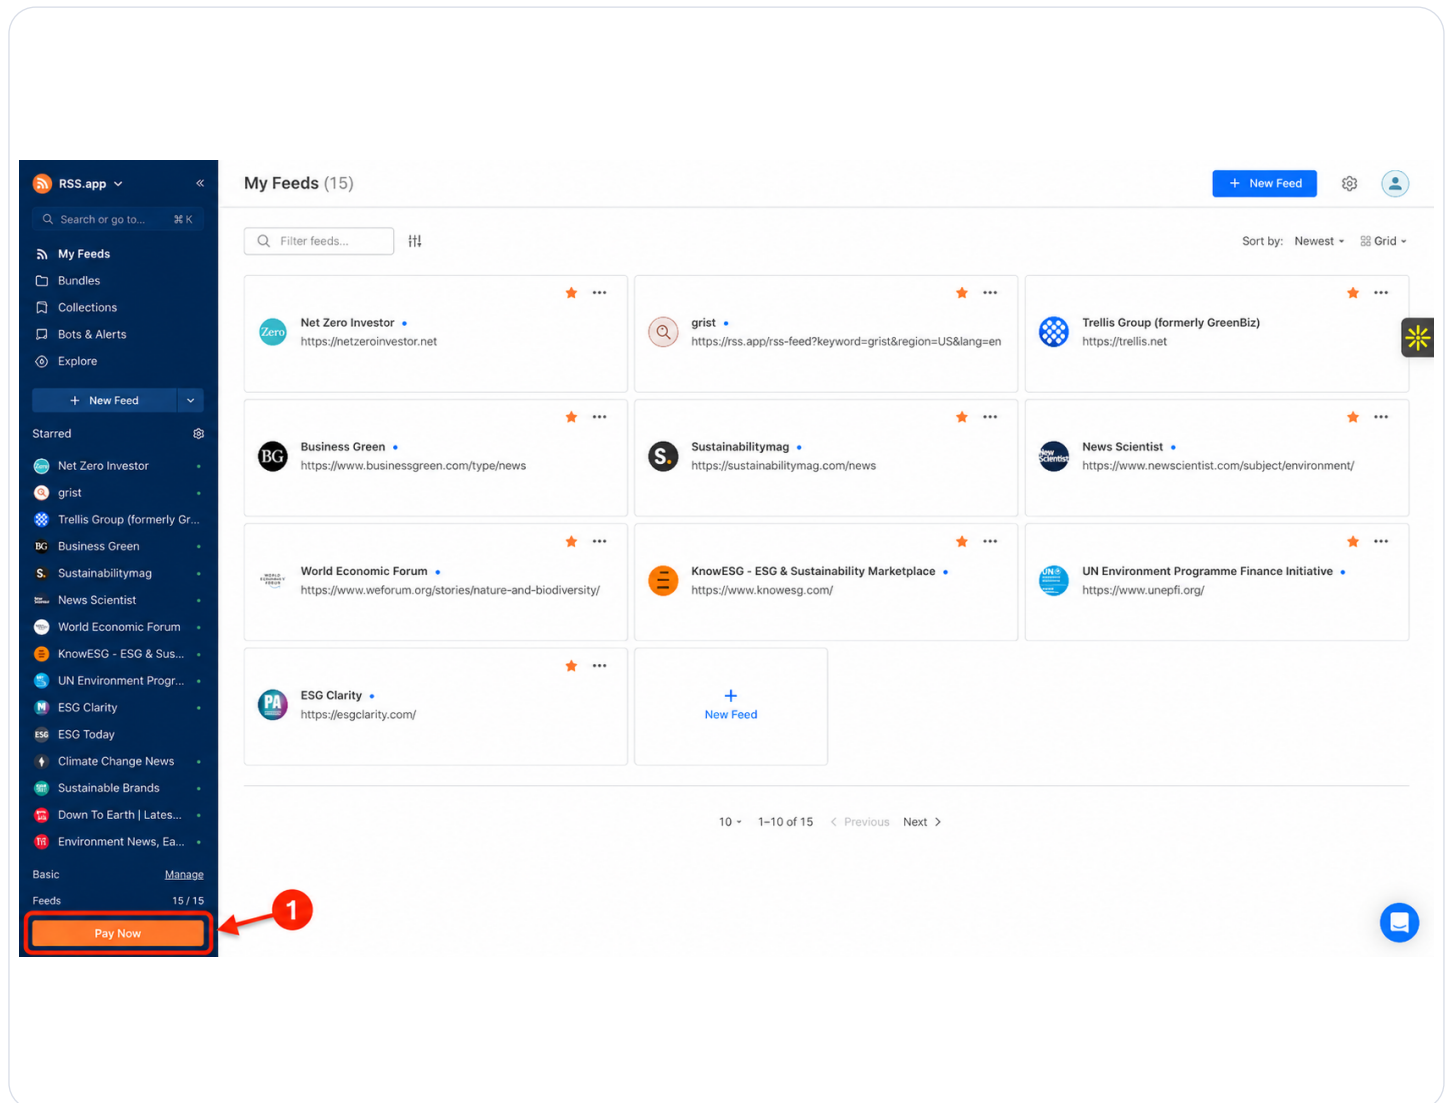

The user starts from the My Feeds dashboard. Because an invoice is unpaid, the orange Pay Now control is visible in the sidebar footer and is marked as Step 1.

Step details

- Screen: My Feeds / Home
- CTA: Orange Pay Now
- Location: Bottom-left sidebar
- Purpose: Route user into the payment flow

Primary action

Orange Pay Now

2 Billing Page - View Invoices

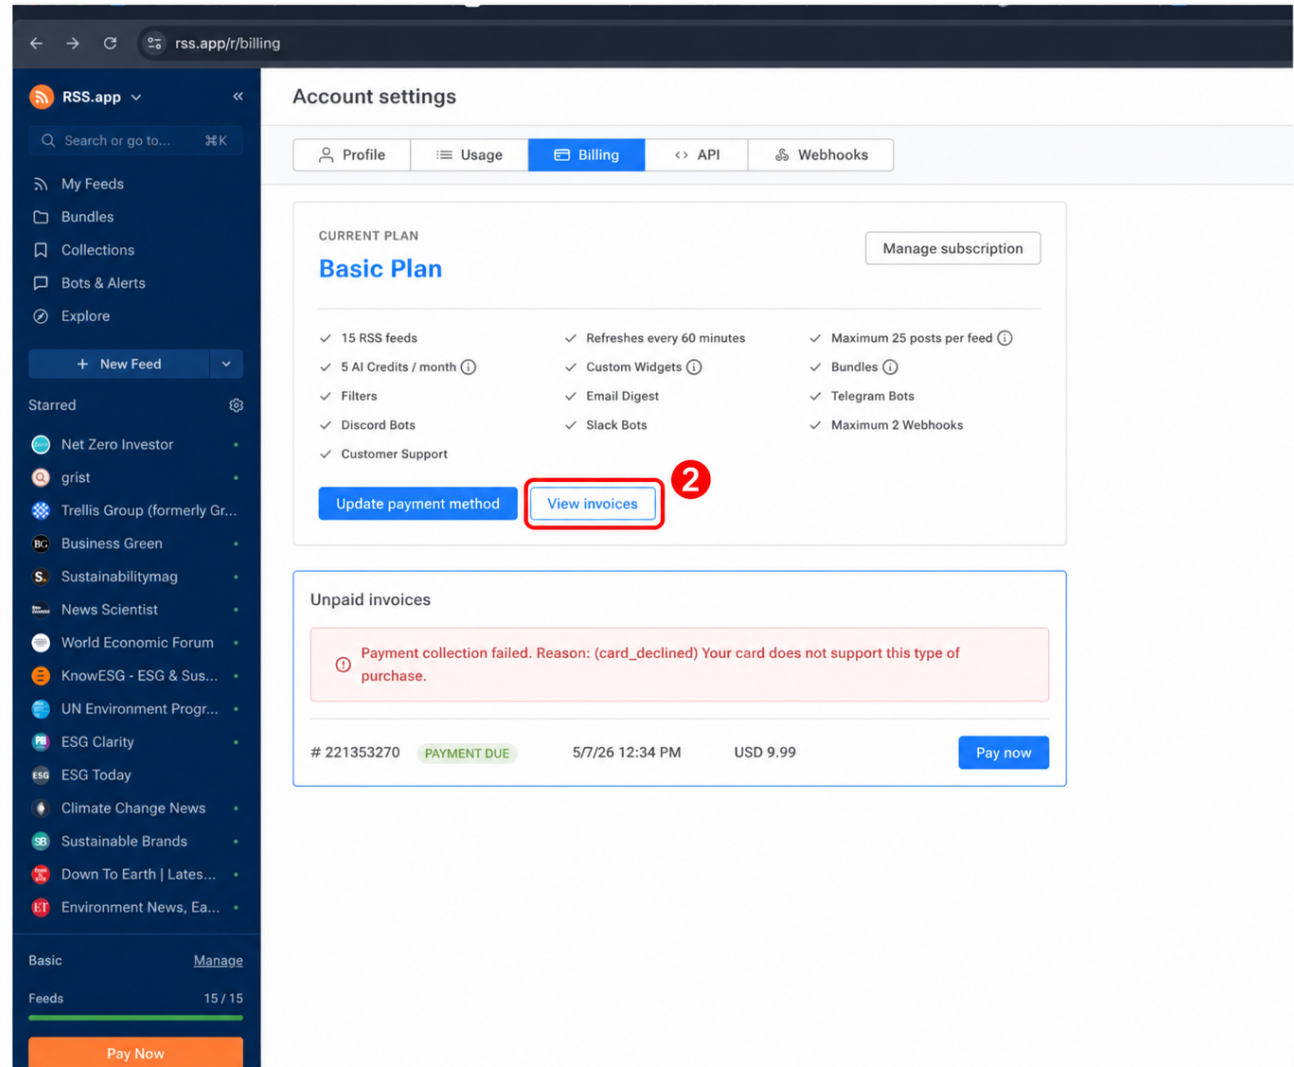

After clicking the sidebar Pay Now button, the user lands on Account Settings > Billing. The View invoices button is marked as Step 2 because it opens the invoice history modal.

Step details

- Screen: Account Settings > Billing
- CTA: View invoices
- Location: Basic Plan card
- Purpose: Open invoice list / billing history

Primary action

View invoices

3 Billing History Modal - Pay Invoice

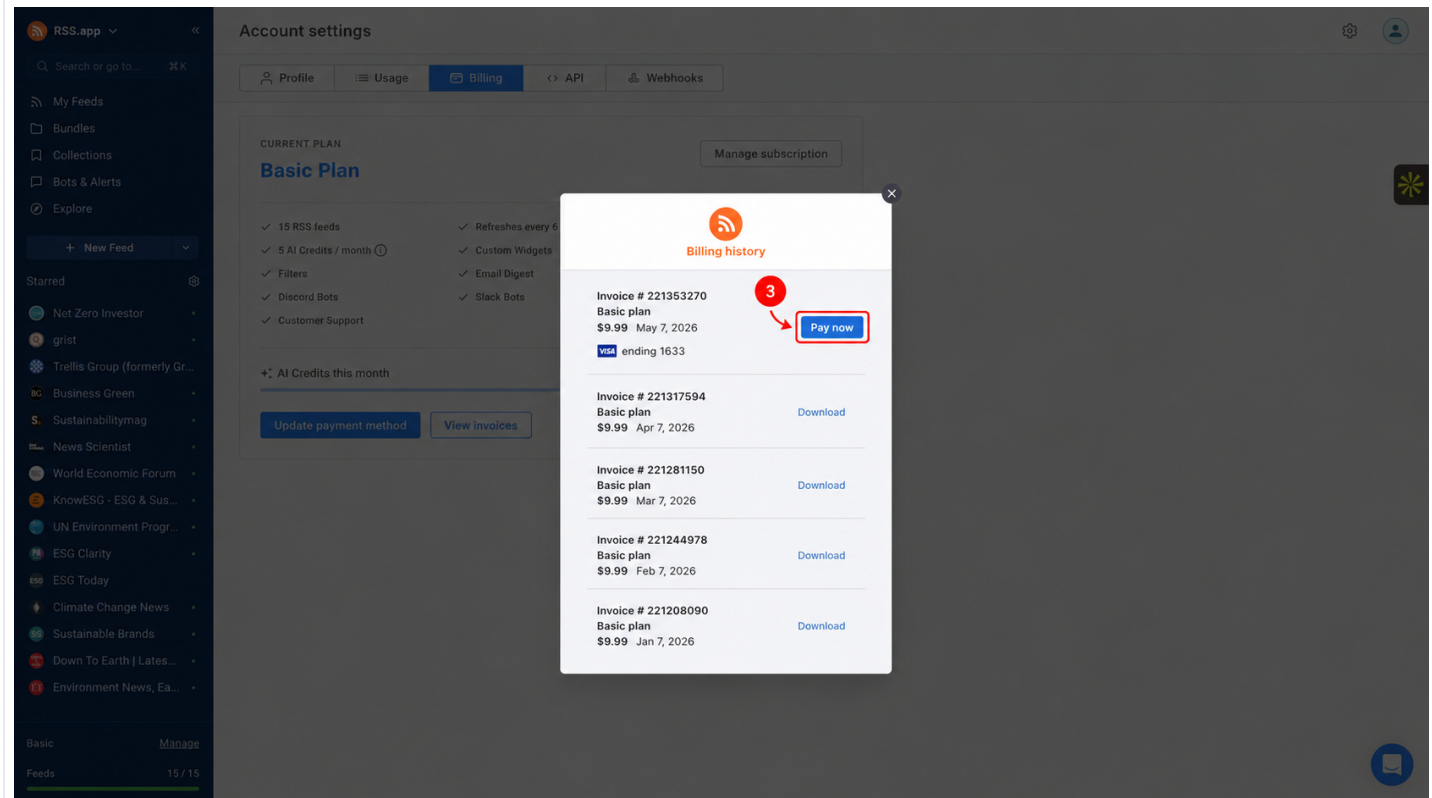

The Billing history modal shows invoice entries. The most recent unpaid invoice has the blue Pay now action, marked as Step 3. It references Visa ending 1633.

Step details

- Screen: Billing history modal
- CTA: Blue Pay now
- Invoice: #221353270
- Payment method: Visa ending 1633

Primary action

Blue Pay now

4 Chargebee Secure Checkout - Complete Payment

The final page is a Chargebee-hosted secure checkout. It displays the invoice summary, selected Visa card ending 1633, amount due, and the final Complete payment action marked as Step 4.

Step details

- Screen: Chargebee hosted checkout
- CTA: Complete payment
- Amount: USD 9.99
- Payment method: Visa ending 1633

Primary action

Complete payment

The screenshot shows a web browser window with the URL `https://rss-app.chargebee.com/hosted-pages/checkout?invoice_id=221353270`. The page is titled "Secure Checkout | Chargebee" and is powered by Chargebee. It displays a "Payment summary" for a "Basic Plan" subscription invoice with an invoice number of 221353270, a billing date of May 7, 2026, and an amount due of USD 9.99. The payment method is a Visa card ending in 1633, marked as the primary method. A large orange button labeled "Complete payment" is prominently displayed, with a red circle and arrow labeled "4" pointing to it. Below the button, it states "You will be charged USD 9.99" and "By completing this payment, you agree to our Terms of Service". The page also includes a security notice: "Your payment information is secure and encrypted." and a link to "Contact support".

Operational Checklist

Check	Expected result
Unpaid invoice exists	Home screen sidebar footer shows orange Pay Now.
Step 1 click	User is routed to Account Settings > Billing.
Step 2 click	Billing history modal opens over dimmed Billing page.
Step 3 click	User is redirected to a Chargebee-hosted secure checkout page.
Card details	Saved card is shown as Visa ending 1633 with Primary status.
Final CTA	Checkout page displays a clear Complete payment action for USD 9.99.
After payment success	User returns to normal home screen and unpaid Pay Now CTA should no longer be visible.

Recommended support script

Ask the user to click the orange Pay Now button on the home screen. On the Billing page, ask them to select View invoices. In the Billing history
