Step-by-step Unpaid Invoice Payment Guide

Knowledge Document

1

Home screen

Click orange Pay Now in the sidebar footer.

2

Billing page

Click View invoices under the Basic Plan card.

3

Billing history modal

Click blue Pay now for the unpaid invoice.

4

Chargebee checkout

Complete the payment on the hosted checkout page.

Product context: RSS.app billing journey for unpaid invoice resolution.

Payment Journey Summary

This page gives the full four-step unpaid invoice payment path. Each screen below is marked with the exact control the user must select.

Step	Screen	User sees	Action
1	My Feeds / Home	Orange Pay Now visible in the bottom-left sidebar because payment is pending.	Click Pay Now.
2	Account Settings - Billing	Basic Plan card with View invoices and unpaid invoice area.	Click View invoices.
3	Billing History modal	Unpaid invoice is listed with Visa ending 1633 and a blue Pay now button.	Click Pay now.
4	Chargebee checkout	Secure hosted checkout page shows USD 9.99 due and selected Visa ending 1633.	Click Complete payment.

Unpaid state

The orange sidebar Pay Now button appears when the account has a failed or unpaid invoice.

Invoice modal

The invoice history opens as a modal over the Billing page. Step 3 is the blue Pay now control on the unpaid invoice row.

Final payment page

The last action happens on Chargebee secure checkout with the saved Visa card ending 1633.

1 Home Screen - Unpaid Account State

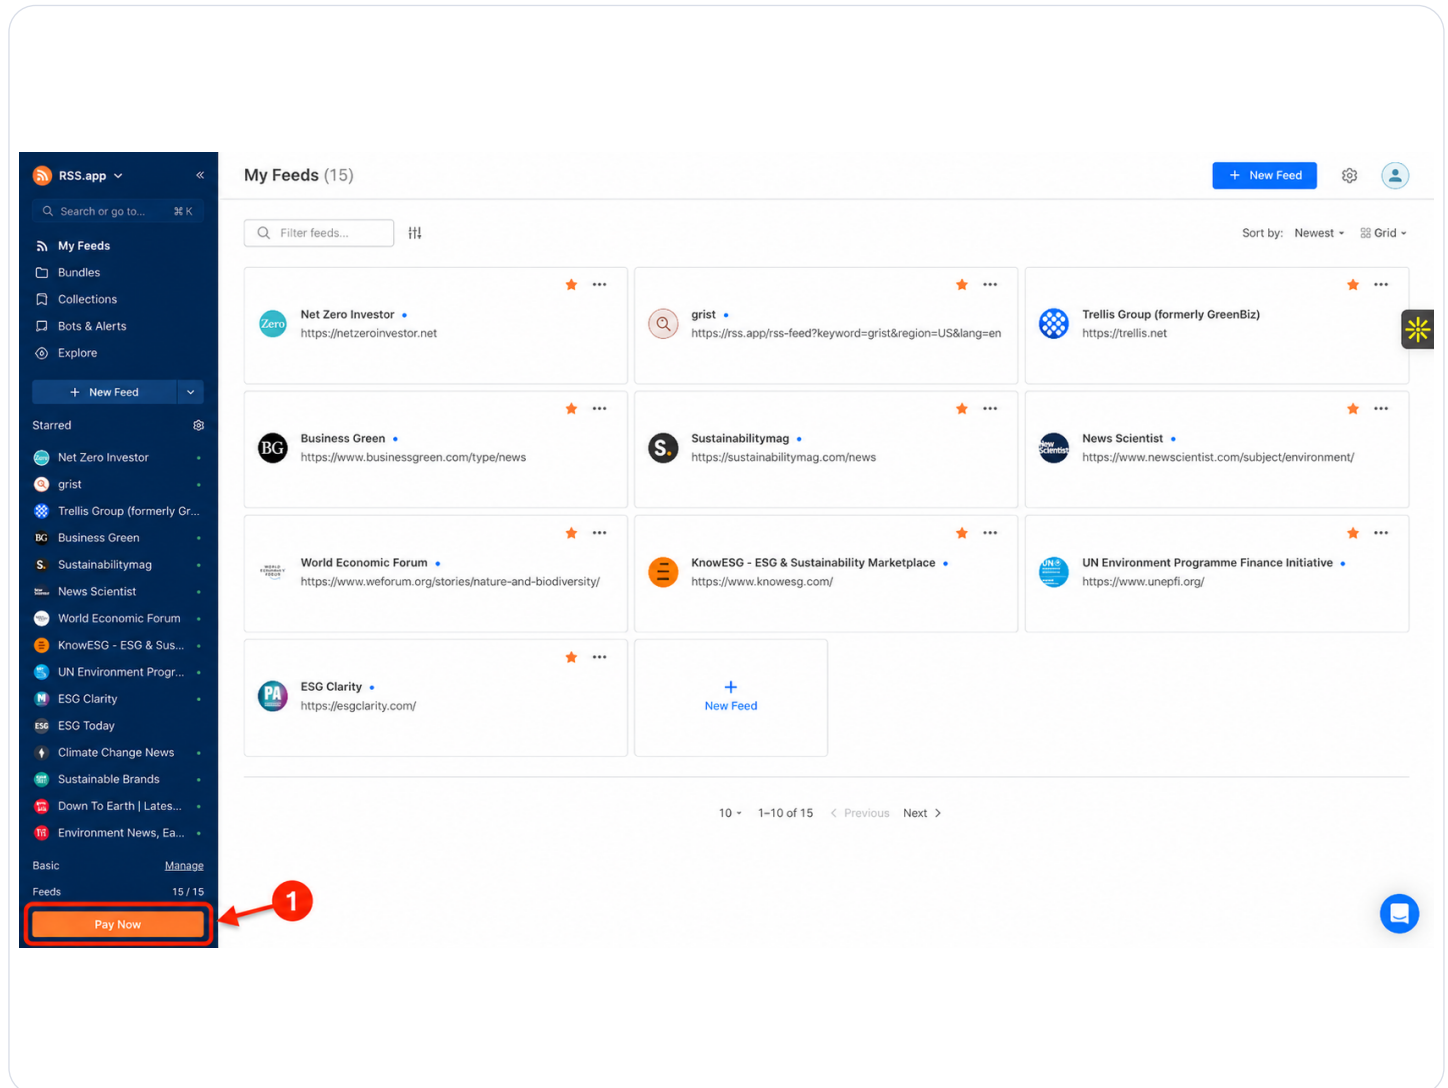

The user starts from the My Feeds dashboard. Because the invoice is unpaid, the orange Pay Now control is visible in the sidebar footer and is marked as Step 1.

Step details

- Screen: My Feeds / Home
- CTA: Orange Pay Now
- Location: Bottom-left sidebar
- Purpose: Start unpaid invoice payment flow

Primary action

Orange Pay Now

2 Billing Page - View Invoices

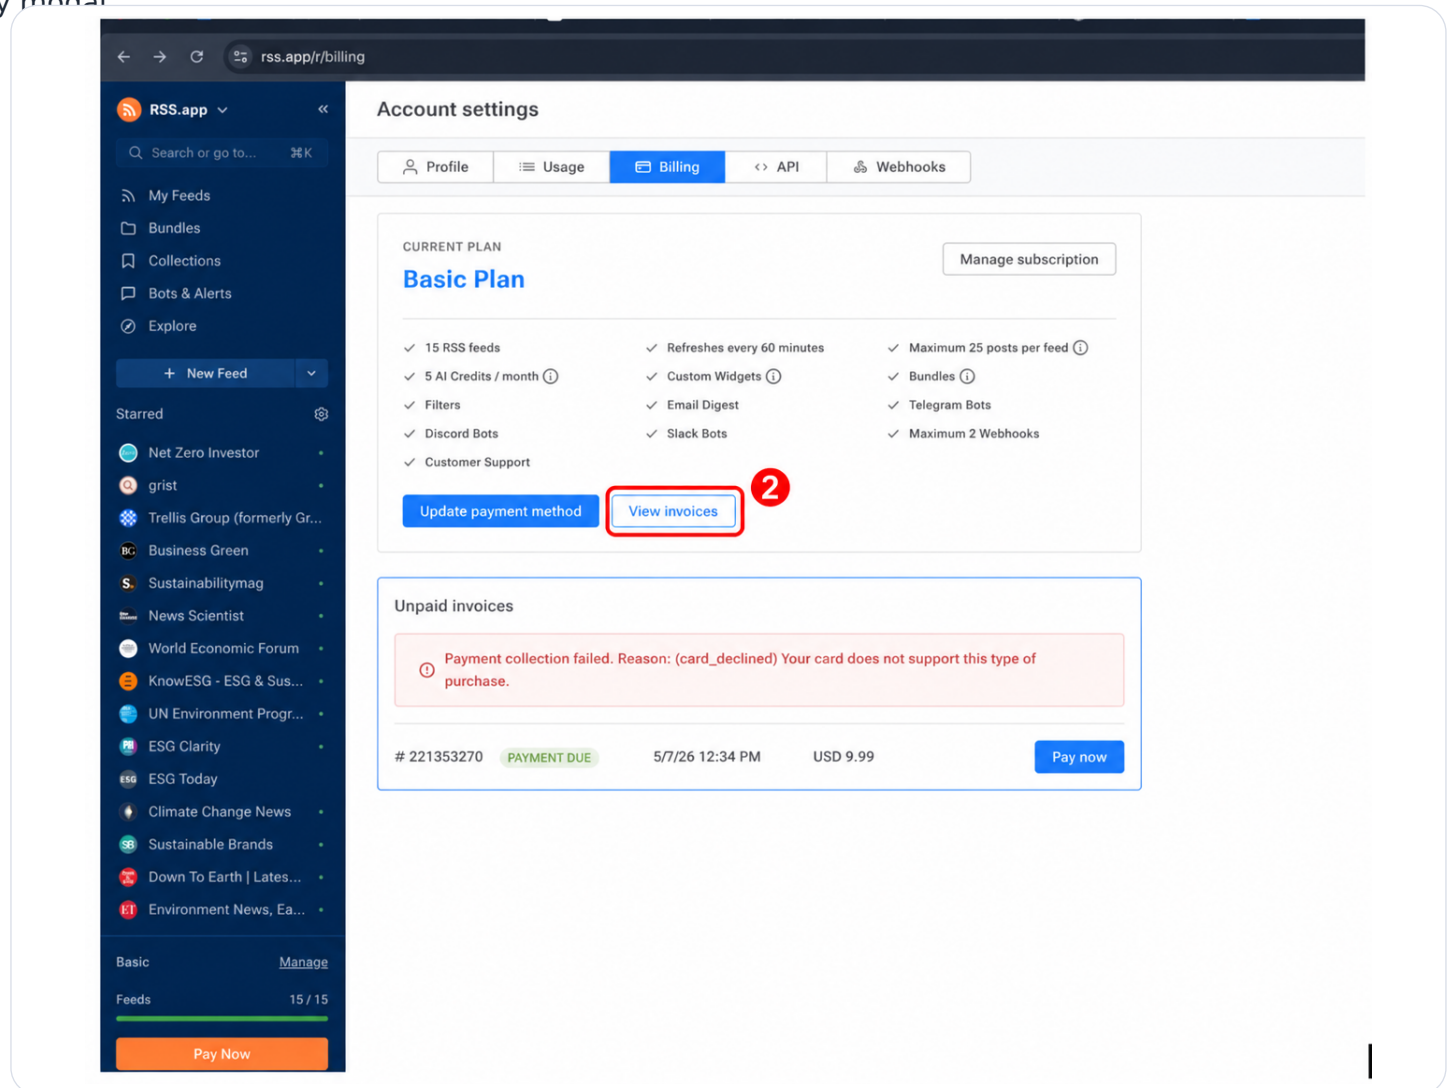

After selecting Pay Now from the home screen, the user lands on Account Settings > Billing. The View invoices button is marked as Step 2 because it opens the billing history modal.

Step details

- Screen: Account Settings > Billing
- CTA: View invoices
- Location: Basic Plan card
- Purpose: Open invoice history

Primary action

View invoices

3 Billing History Modal - Pay Invoice

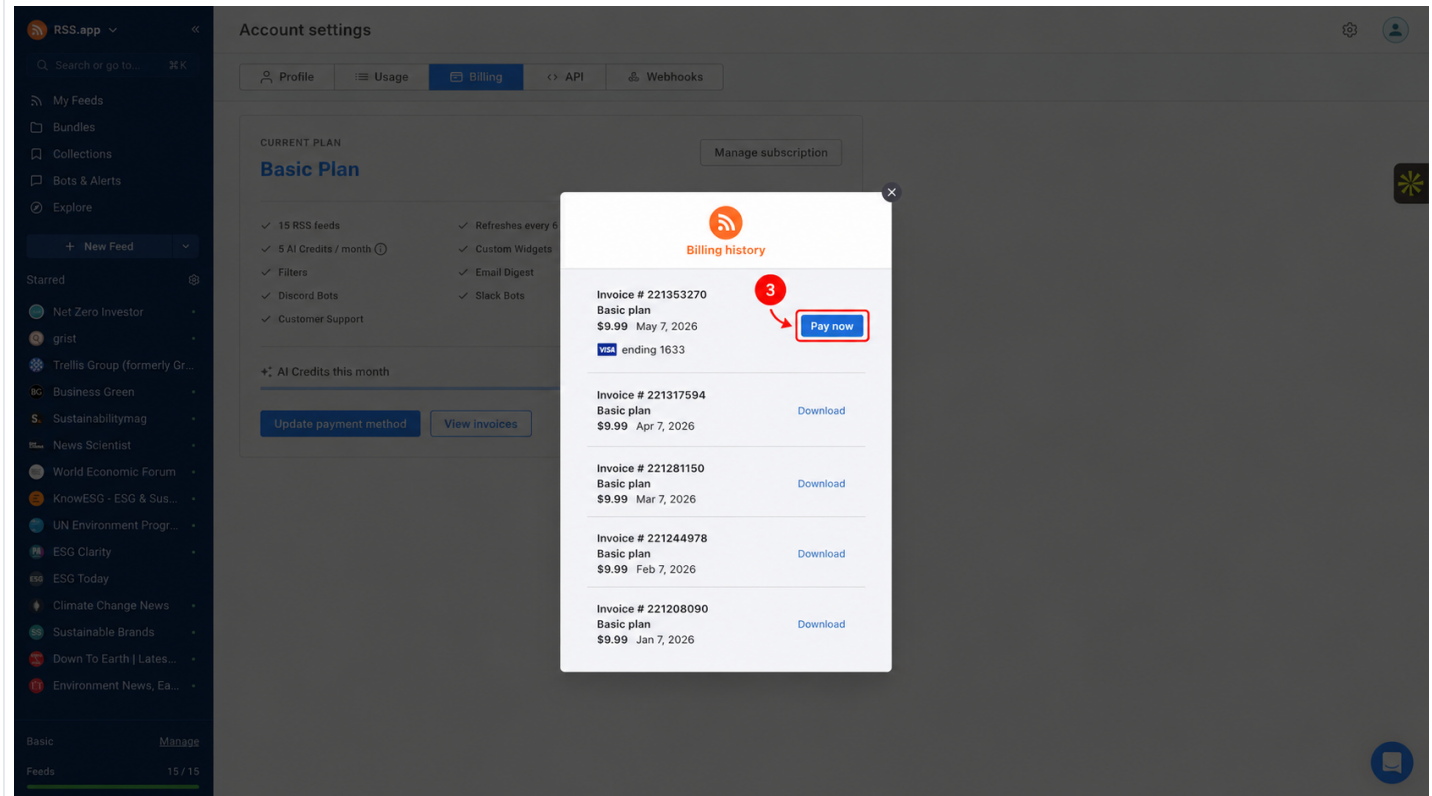

The Billing history modal shows the unpaid invoice. The blue Pay now button is marked as Step 3. The invoice references Visa ending 1633.

Step details

- Screen: Billing history modal
- CTA: Blue Pay now
- Invoice: #221353270
- Payment method: Visa ending 1633

Primary action

Blue Pay now

4 Chargebee Secure Checkout - Complete Payment

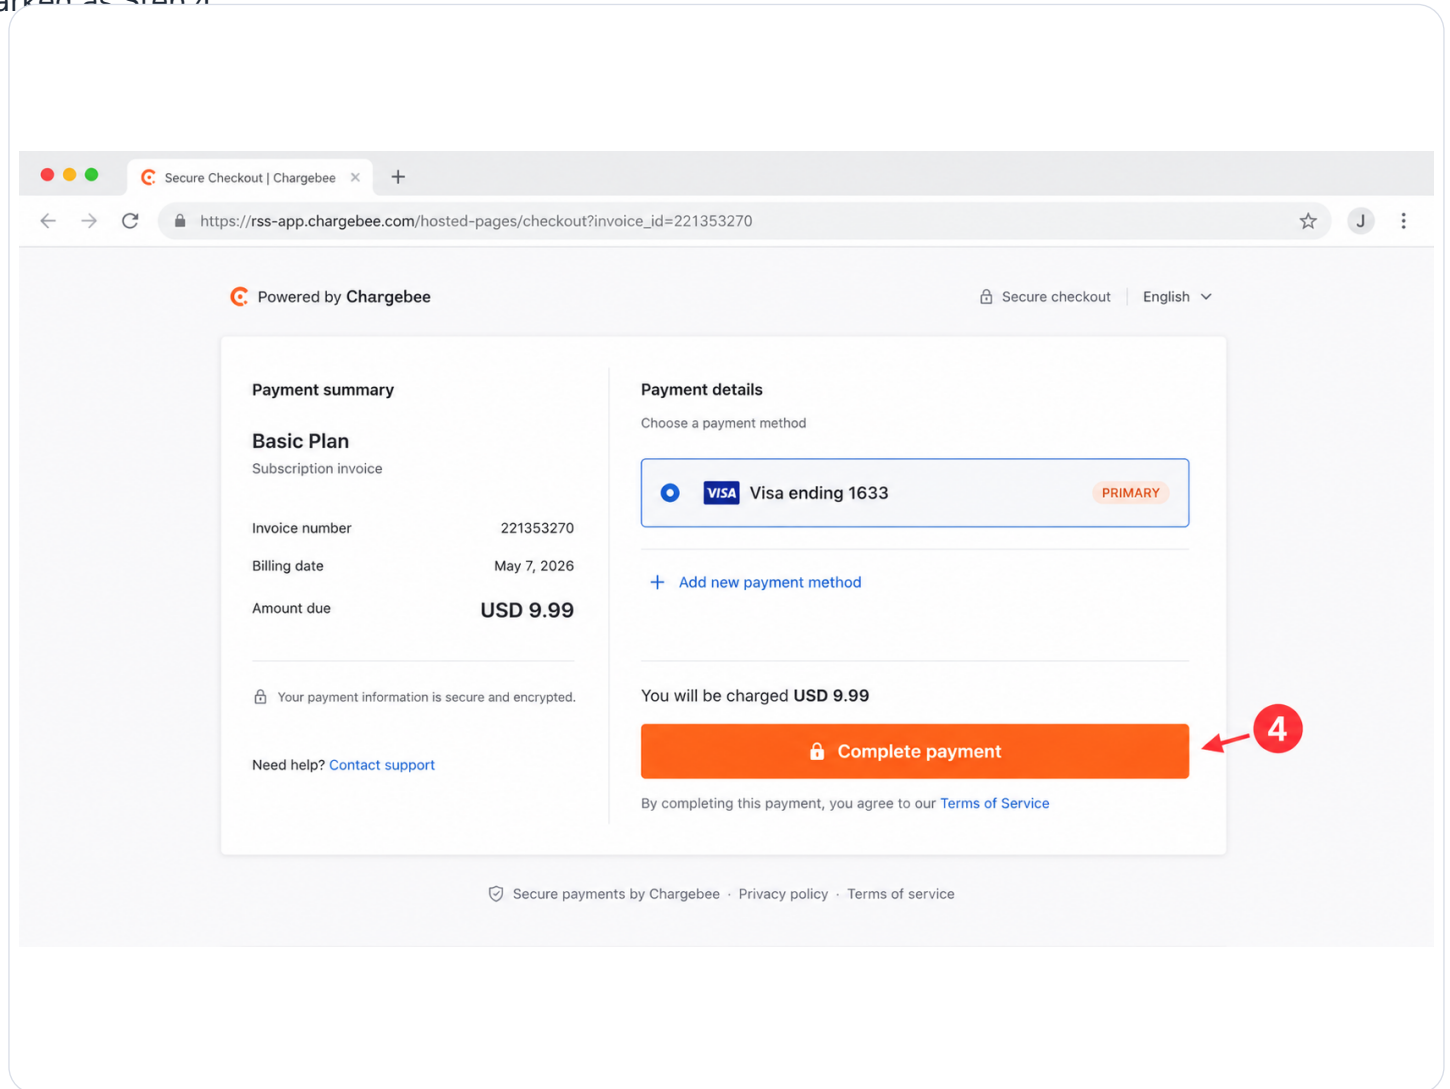

The user is redirected to Chargebee secure checkout. It displays the invoice summary, selected Visa ending 1633, amount due, and the final Complete payment button marked as Step 4.

Step details

- Screen: Chargebee hosted checkout
- CTA: Complete payment
- Amount: USD 9.99
- Payment method: Visa ending 1633

Primary action

Complete payment

Secure Checkout | Chargebee

Expected Result After Successful Payment

After the Chargebee payment is completed successfully, the unpaid state should clear. The user can return to the RSS.app home screen, and the unpaid invoice Pay Now prompt should no longer be shown. The billing records should continue to show the paid invoice as part of billing history.

End of knowledge document

Reference path: Home screen -> Billing page -> Billing history modal -> Chargebee secure checkout.
